This year our company will join the leaders of the world IT industry at the stand of our partner OSEC in the frame of their program SIPPO. OSEC is a competence centre promoting cooperation of the Swiss companies internationally. For several years running Softengi provides IT services for our partners in Switzerland – so, our company decision to join SIPPO program at CeBIT was absolutely natural.

In today's world market development IT outsourcing gains more ground as the means of cost saving and innovations implementation for the companies of each size and of any location. IT outsourcers from various regions offer higher technological expertise level in more favorable terms of service providing. One of such favorable regions is Ukraine – one of the world top 30 IT outsourcing destinations and the first-place IT outsourcing market in Central and Eastern Europe.

As a player of Ukrainian IT outsourcing, Softengi has done our best to bring the most interesting and useful information for our potential and current partners, for industry colleagues and everybody fond of IT. Visiting our stand, our potential partners will be able to get acquainted with our technological expertise and industrial experience, and our current partners will come to know about the new concept of our services. For everybody interested in IT outsourcing on general, and IT outsourcing in Ukraine, in particular, we will tell about myths of Ukrainian IT Outsourcing during our presentation at the Flat World Forum on March, 3.

We invite you to meet us at CeBIT 2011 in the Hall 2, Stand D30 and visit us at the Flat World Forum in the Hall 6.

NOTE: Softengi is Kyiv, Ukraine based software engineering vendor and outsourcing service provider. Softengi is a member of the U.S.-Ukraine Business Council (USUBC), www.softengi.com.
